Missouri Native Plant Society

Hawthorn Chapter

*Promoting the conservation
and enjoyment of the native
flora of Missouri*

Who we are and what we do:

The Hawthorn Chapter of Missouri Native Plant Society (MONPS) is made up of individuals from Columbia and the surrounding region with various levels of expertise and interest in native plants who appreciate and want to conserve our natural Missouri heritage. Together, we enjoy wildflowers in their native habitats, share knowledge about identifying and growing native plants, and sell books and native plants to finance student scholarships, plantings, and educational material.

Membership benefits

- Learn to identify and grow native plants through field trips and workshops.
- Go on field trips to see wildflowers and enjoy Missouri's rich natural communities including glades, prairies, and forests.
- Enjoy presentation by invited speakers at our regular meetings.
- Increase and share information about the benefits of native plants.
- Receive monthly newsletters from the Hawthorn Chapter and bi-monthly newsletters from the state MONPS.
- Meet others who share these interests

Photographs of 2006 Spring wildflowers, from left to right, top to bottom: Bluebells, Jack-in-the-pulpit, Flowering dogwood, Violet wood sorrel, Bellwort, and Missouri violet, by Frank La Sorte and Judy Ward.

Brochure design by Judy Ward and Sandra Kubal, April, 2006.

"The purpose of the Hawthorn Chapter of the Missouri Native Plant Society is to promote the enjoyment, preservation, conservation, restoration, and study of flora native to Missouri, public education of the value of the native flora and its habitat, and publication of related information." — MONPS, Hawthorn Chapter, bylaws, Art. 1, Sec. 2.
