Columbia, MO 65202

Grant Evaluation Questions

1. What is the name of the Grant Project, the school name and the name of the grant applicant.
2. Describe the extent to which participants achieved the project objectives and purposes of the grant program. Provide specific examples.
3. What parts of the grant activities were particularly successful? Describe what made them successful.

What (if any) parts of grant activities proved to be problematic in terms of their implementation and success?

4. If you continue this project in the future, how will it be modified to improve student achievement and further support Hawthorn Chapter of MONPS goals?
5. If this was a planting/garden project on a school/organization site what steps are in place to assure continued maintenance of this planting site in the future.
6. Summarize the growth that you observed or experienced, in student, teacher or leader awareness and understanding of the importance of native plants in Missouri.
7. Complete the Grant Financial Accounting form and return it (including receipt copies) with this evaluation.
